BIO

GrooveAx is a seasoned live duo formed in 2023 in the north of the Netherlands, consisting of Willem (DJ) and Roeland (Guitar).

Willem is deeply passionate about curating the GrooveAx sound, selecting daily new releases that resonate with the group's distinctive vibe. He crafts a sustained groove by integrating loops of select beats and sounds, serving as foundational tracks for their live performances.

With over 15 years of experience accompanying DJs, Roeland enriches tracks with nuanced guitar layers that accentuate the groove through melody, bass riffs, and atmospheric effects. His use of analog synth loops infuses the music with a nostalgic quality, appealing to fans of iconic 80s and 90s sounds.

LIVE

GrooveAx performances are known for their high energy and raw, nostalgic sounds, blending deep and melodic house to lift the crowd to another level.

EQUIPMENT

The setup features NI Traktor, combined with a guitar pre-amp and Nord Lead synth, all routed through its own mixing console. It requires only RXA or XLR outputs, with a minimum space of 55 by 65 cm.
